

Optional Video Analysis.

* This is a camp with larger numbers unlike our Super Camps, therefore not all swimmers will be filmed.

* ONLY those that select & pay for the additional video analysis option will be filmed on their selected stroke/skill.

* If there are 2 strokes being covered on a camp for example, each stroke will be a separate video analysis, giving you the option to have none, one, or both. Each stroke/skill will cost £45 for the filming and analysis. This will be payable at the time of booking.

* Only the stroke/skill that is part of the camp being booked can be filmed. For example, if the camp covers Breaststroke & Freestyle, only Breaststroke and/or Freestyle can be filmed.

* There will be 3 videos taken, one from over water and 2 from underwater at 2 different angles. These videos will then be analysed after the camp by Amy or Joe, where the videos will be annotated & narrated.
